

Eastern House has been supplying quality software since 1977. We have been here since the first Commodore computer, since the first Atari computer, and since the first Apple computer. We are very proud to have been part of the driving force during those early years and hope to continue to be part of it in the future. We have produced a number of significant software products which have been well received by the computer public. These include MAE, Monkey Wrench, TelStar, and Rabbit. Because these types of programs help make using the computer easier and the programmers life easier, our software continues to be up-to-date and usefull. In other words, good utility type software never goes out of style. It's like any tool, it's always there for you when you need it - and if you don't have the proper tool when you need it, it may cost you many hours of work to do a job that could have been done in minutes.

So take the time to look over our ads and see if any of our tools fit your needs. If so, take advantage of our special club discount. We guarantee our software for 30 days, so give us a try - order today and save.

We sincerely appreciate you as our customer!

TO ORDER : Just send a club order along with a check, money order, or Visa/Master card number (and expiration date). For orders less than \$50.00, add \$3.00 shipping.

Order 1 or 100 programs and still receive a 50% discount. We guarantee our software for 30 days so you know you can't go wrong. Order today and save!!

## RABBIT

For the 64 or VIC

Alternative to the 1541 Disk Drive!

Load or save 8K in 30 seconds! It's less expensive than disk and can even be used as a backup to the flaky 1541!

Yes, the RABBIT is that and much more. Uses the Commodore cassette deck but loads and saves much, much faster than regular Commodore load/save. Think about it — loads or saves an 8K program in almost 30 seconds, 16K in 1 minute, etc. That's nearly as fast as the 1541 disk. RABBIT is on cartridge so it's always there. Also has other useful commands. Specify for use on the 64, or on the VIC 20 —

"It was the best purchase for my computer that I have ever made!"

"Congratulations on your 64 Rabbit. It's a super piece of work."

## AutoLoad/ Directory

Cartridge for the 64.

This cartridge has a push-button switch on it that allows you to: 1) Load and then automatically run the first program on disk, and 2) Display the disk directory — either at the touch of a button! It may not sound like much but it is absolutely one of the most convenient accessories you can install on your 64. Housed in an attractive plastic cartridge complete with easy to install instructions, works with every software package (including menus and commercial software) we have tried and it doesn't take away any memory. Think about it the next time you type: **LOAD "\*" ,8,1 RUN** or **LOAD "\$",8 LIST**. Remember, it's only

## TelStar 64™

by Eastern House

A Communications Cartridge for the Commodore 64.

Upload/Download, Status Line, etc. Works with your Commodore 1600 or 1650 Modem. Auto-dialing, etc. when used with the new CBM 1650 Modem.

### TELSTAR 64

Sophisticated Terminal Communications Cartridge for the 64.

\*PFO\* 10D 00D CP D1 D2 BELL 12:30:00 10:14:36  
(TELSTAR's Status Line)

Don't settle for less than the best!

- Upload/Download to/from disk or tape.
- Automatic File Translation.
- Communicates in Industry Standard ASCII.
- Real-Time Clock plus Alarm Clock.
- Line editing capability allows correcting and resending long command lines.
- 9 Quick Read functions.
- Menu-driven.
- Similar to our famous STCP Terminal package.
- Works with Commodore Modems and supports auto-dialing.

## Machine Language Monitor Cartridge

for the CBM 64

More than 20 commands allow you to access the CBM 64's Microprocessors Registers and Memory Contents. Commands include assemble, disassemble, registers, memory, transfer, compare, plus many more.

Someday every CBM 64 owner will need a monitor such as this.

Cartridge and Manual
